

Project Development Phase Sprint Delivery 1

Team ID	PNT2022TMID49721
Project Name	Retail Store Stock Inventory Analysis

Project Development Phase:

Sprint 1:

- Fetching Dataset From external API
- IBM DB2 service creation

Uploading Dataset into Kaggle:

The screenshot shows the Kaggle dataset upload page for a dataset named 'Sample Dataset'. The interface includes a sidebar with navigation options like Home, Competitions, Datasets, Code, Discussions, Learn, and More. The main content area shows the dataset title 'Sample Dataset' with a subtitle 'Add a subtitle Edit'. Below the title, there are tabs for 'Data', 'Code (0)', 'Discussion (0)', and 'Settings'. A 'Pending Actions' section is visible, showing a 'USABILITY SCORE: 1.18' and four action cards: 'Add a subtitle', 'Add tags', 'Add a description', and 'Upload an image'. The 'Add a subtitle' card has a description: 'Stand out on the listings page with a snappy subtitle'. The 'Add tags' card has a description: 'Make it easy for users to find your dataset in search'. The 'Add a description' card has a description: 'Share specifics about the context, sources, and inspiration behind your dataset'. The 'Upload an image' card has a description: 'Make your dataset pop with an eye-catching cover image and thumbnail'.
